to whom it concerns.

JetPilot has been working with Silk Screen Shirts for the last few years. We have found that Silk Screen Shirts brings to us an extensive knowledge of the technology available in printable goods. As we show them our designs their team goes thru them and offers suggestions to make sure the JetPilot brand stays on the cutting edge of the new trends. When we come to them with new ideas they are willing to experiment to achieve our desired look. They deliver a quality product that is on time, packaged and documented correctly. They work with us to achieve our price goals.

The dedication of Cameron, Will and all the staff makes Silk Screen Shirts a great vendor.

Rachel Boschman
JetPilot Production Manager
